

Go2Group DOORS Plugin

www.Go2Group.com

Requirements Management and Issue Tracking. Together.

Using Atlassian JIRA and IBM Rational DOORS? Keep JIRA issues in sync with DOORS requirements.

The screenshot shows a JIRA issue interface. At the top, there are buttons for 'Comment', 'Voters', 'Watch Issue', 'More Actions', 'Reopen Issue', and 'Workflow'. Below this is a 'Details' section with the following information:

Type:	Bug	Status:	Closed
Priority:	Major	Resolution:	Fixed
Affects Version/s:	None	Fix Version/s:	None
Component/s:	None		
Labels:	None		

Below the details is a 'DOORS Requirements' section with a single entry: '1.1 Purpose of the Document (updated)'.

COLLABORATE

The bi-directional nature of the Go2Group DOORS Plugin for JIRA allows new DOORS requirements to be associated with JIRA projects automatically.

EXTEND

Use custom fields to share DOORS requirements across different solutions, including GreenHooper, Quality Center, and Go2Group synapseRT,

START NOW

The Go2Group DOORS Plugin for JIRA can be setup with new JIRA projects with no issues, or an existing JIRA project that already contains issues.

WHY GO2GROUP

Go2Group is an Atlassian Premier Partner, providing services and products to assist organizations in designing and implementing their Atlassian environments. Go2Group's advanced user and administration training, along with testing, migration, and integration services, help meet the needs of the most demanding environments.
