

ConnectALL

from Go2Group

Connect Your Entire Team. Instantly. Automatically.

Go2Group ConnectALL is the connecting platform at the center of Go2Group's integration and acceleration solution. ConnectALL integrates test management systems with today's most innovative sales, marketing, support, and development applications, through a simple, web-based user-management interface.

By connecting your organization's systems, teams can quickly share knowledge across the enterprise, ensuring products are fully supported and released on time.
